

The SLI Specification

AILG Facilities Committee

- What is it?
 - Base enabling document describing the requirements and structure of AILG's safety, licensing, and inspection program
- New version needs approval by the AILG membership
 - Final draft posted at <https://ailg.mit.edu/committees/facilities-committee>
 - Send comments to ailg-facilities@mit.edu
 - Vote at next plenary
- Previous version out-of-date with respect to
 - BSF description
 - Escalation procedures and participants
 - Registered document list
 - Description of the document tracking system (SLI web dashboard)
 - Myriad wordsmithing details

The SLI Specification

AILG Facilities Committee

- Charter
 - “...to assist members in meeting their obligations in the areas of safety, licensing, and inspection (SLI) of their buildings...”
- Document Registration
 - “Representatives from participating FSILGs submit digital copies (or paper copies to be digitally scanned) of all Registered Documents, which are recorded in the SLI registration system. “
- Process Management
 - “The SLI registration system will track the status and expiration of all documents and implement a process of notices and reminders...”
- Contact List
 - “The SLI registration system will maintain an up-to-date list of reliable SLI contacts for each FSILG...”
- BSF Services
 - “The BSF performs regular inspections of FSILGs facilities...”
 - The BSF helps organizations pass city inspections and helps assure buildings are safe.
 - The BSF is now the FCI , but note the spec does not require the BSF to be a specific entity.
- Escalation And Emergency Procedures
 - “Escalation procedures address [high-priority] situations arising from neglect or failure to comply [with safety, licensing, or inspection requirements]...”
- Registered Documents List
 - List of required documents (Lodging License, Egress Certificate of Inspection, ...)
- Information Access
 - Means and authorizations for accessing documents (e.g. inspection reports)
