Update from the Phase II West Campus Village Task Force

<http://ailg.mit.edu/west-village>

This Work Builds On:

- FSILG Alum Task Force - Summer 2015
- Phase I work, which includes input from 150 students
 - Two student design workshops
 - Student surveys
 - ILG, Panhel, IFC leadership
- Input from West Campus Master Planning Study
- Benchmarking Study of 22 Colleges
- Phase II Task Force activities

Understanding Needs

MIT

Beds must be fully utilized

Max capacity of land must be achieved in terms of height or beds

Buildings must be well maintained and provide a safe, healthy environment

Built by MIT to meet campus residence standards

FSILGs

Assurance that MIT is making a long term commitment and cannot repurpose space assigned to an FSILG

Want freedom in customizing within architectural theme

Want ability to manage house as part of leadership development experience

Want freedom from excessive oversight

Emerging Plans for West Campus

**Tomorrow's West Campus:
a vibrant destination offering...**

- Housing
- Athletics, Recreation & Fitness
- Retail / Program space
- Underground Parking
- Other TBD (planning underway!)

Approach A: Townhouses

Management & Operating Agreement DRAFT

Lease	Leases are 40 year, with transparent renewal process that occurs 10 years before lease end date.
Management	All FSILG housing management and financial arrangements will be coordinated through a new department in the DSL.
Maintenance	In Residence Model I, MIT commits to providing a clean and well-maintained facility. In Residence Models II and III, the organization is responsible for its share of the cleaning and maintenance. Should a chapter fall behind in maintenance, MIT will provide written notice to House Corporation with time to cure deficiencies. Houses will need to use approved vendors to ensure code adherence and proper insurance; the FCI will develop a coop of approved vendors in coordination with the DSL.
Under Occupancy	Should occupancy fall below capacity, MIT has right to isolate entry to top floor and house other members of the MIT student community. In Models II and III, MIT would and pay rent and operating costs equal to the appropriate % of bedroom space.
Summer Occupancy	Under Residence Model I, MIT utilizes house over summer. Under Model II and III, chapter can utilize house over summer with tenant priority given in order to: 1. Members of the chapters, 2. Others in the MIT community, 3. Members from the national at other accredited institutions, 4. Other college students.
Chapter Suspension	In the event of a chapter suspension, MIT has the right to utilize the facility for other student housing purposes during the suspension and will pay the chapter the appropriate rent based on the ownership model. When the chapter is reinstated, the facility will be returned to the chapter.
Chapter Closure	Should the chapter shut down permanently, MIT would take over the facility and repurpose for another FSILG living group. If the chapter has ownership of the facility (Model III) then MIT will buy out that ownership at a price based on 40 year straight line depreciation of the initial investment (e.g. ½ after 20 years). Chapter alumni will be informed and included in all discussions as the disciplinary process progresses.

Next Steps

- Address FSILG questions
- Seek definite commitments
