

The following notes use the Existing SLI Spec Table of Contents to help the reader compare it to the DRAFT SLI Spec (Dated August 1, 2022).

TABLE OF CONTENTS (p.2)

See New Table of Contents.

1 PROGRAM OVERVIEW (p.2)

The description of the SLI Program has been edited for length and placed under the New Section 1-Program Overview.

1.1 Charter (p.3)

Placed under New Section 2-Charter, the previous wording has not been changed, except a paragraph from Old Section 3.1 (p.7), regarding administration of the SLI Spec has been also placed here.

1.2 FSILG Cooperative, Inc. Activities (p.3)

Edited for length to remove a number of explanatory asides and redundancy with other sections (ie. Issue Tracking), some of which are also outdated (ie. Inspection Coordination). Remaining sections have re-ordered to new Sections: Section 4-SLI Document Registration, Section 5-SLI Process Management, Section 6-SLI Contact List.

1.3 Building Safety Facilitator Activities (p.4)

In order to avoid confusion, the BSF's activities are described by reference to the BSF Contract, specifically Exhibit C Scope of Services from the BSF Contract. See New Section 7-BSF Services.

1.3.1 BSF Alternative (p.4)

Folded into New Section 7-BSF Services.

1.4 MIT EHS Office Activities (p.5)

In actual practice this was never used and is being eliminated entirely.

1.5 Other's Activities (p.5)

Some removed for redundancy and placed in New Section 3-Participants. Accreditation Committee removed as they are no longer part of the SLI process.

2 BUILDING SAFETY FACILITATOR SCOPE OF WORK (p.5) and all Sub-sections

In order to avoid confusion, the BSF's activities are described by reference to the BSF Contract, specifically Exhibit C Scope of Services from the BSF Contract. See New Section 7-BSF Services.

3 CLIENTS, REPORTING RELATIONSHIPS, AND RELATED ORGANIZATIONS (p.7) and Sub-section 3.1 Program Evaluation and Evolution (p.7)

Edited for length and moved to New Section 3-Participants and New Section 2-Charter.

4 ESCALATION AND EMERGENCY PROCEDURES (p.7) and Sub-sections 4.1-Escalation Procedure (p.8) and 4.2 Emergency Procedures (p.9)

Edited for length and redundancy and moved to New Section 8-Escalation and Emergency Procedures. NOTE: The Escalation Table has been simplified, and now includes both registered document compliance, building problems, and serious building problems.

5 PROGRAM FEES (p.9) and all sub-sections (pp9-10)

To avoid confusion, this section is removed. Program fees are established by the AILG Treasurer and vary from year to year.

6 SLI CONTACTS (p.10)

Simplified and moved to New Section 6-SLI Contact List.

7 REGISTERED DOCUMENTS (p.10)

Edited for length and changed to bring into line with current practices.

8 INSPECTIONS PROCESS (p.11)

In order to avoid confusion, this process is described by reference in the BSF Contract. See New Section 7-BSF Services.

9 INFORMATION ACCESS and all sub-sections (pp12-13)

Edited for length, sections removed because of redundancy and obsolescence. See New Section 10 and its sub-sections. Document access by MIT personnel is more restricted, others' access has not changed.
